

■ Background Sample Location Analyzed for Metals
 ▲ Background Sample Location Analyzed for Metals & Dioxins/Furans
 ▲ SSFL Background Sample Location previously sampled for Metals and Dioxins and also sampled after the Topanga Fire Background
 ▨ Shale Units
 ■ 2005 Topanga Fire Area

NOTES:
 1. Soil and ash samples were collected and analyzed at background sample locations SGSS01, BZSS05, BCSS09 and BKND-5.
 2. Background sample locations BKND-1 and BZSS06 did not have any visible ash material in the vicinity. Only soil samples were collected and analyzed at these locations (ash not collected).
 3. Burn area reaches beyond figure extent.
